BGSM-G GPRS Communicator

BEYOND THE BOUNDARIES

Bentel Security's new BGSM-G, universal GSM/GPRS alarm communicator guarantees reliable communication increasing your level of security.

The BGSM-G can be used as a backup to a traditional PSTN phone line, or as a primary alarm communicator when no PSTN line is available.

The BGSM-G uses the GPRS data channel of the GSM network to ensure low-cost, high-speed and reliable alarm communications.

- Automatic back-up in case of telephone line failure
- Compatible with any alarm control panel using Contact ID format
- Contact ID event decoding and data transmission via GPRS
- Significant cost reduction via GPRS event transmission
- Supervision with GPRS/IP compatible receiver
- 4 channel SMS dialler
- 4 channel Contact ID digital communicator
- Fault reports automatically communicated
- Remote home automation features
